Suicide Bereavement: Practical Applications Conference 2024

Throughout September 2024, Harmless is hosting its fifth annual online Suicide Bereavement Conference. To mark World Suicide Prevention Day, we will be presenting a series of live webinars examining practical applications for working in suicide bereavement. Sessions take place every Tuesday and Thursday between 10am – 11am and each will be led by an expert in the field. Our theme this year is *Stopping the Ripples, Turning the Tide: The Role of Suicide Bereavement Interventions in Saving Lives*.

Suicide bereavement is a particularly specialist area. So many of us have been impacted by suicide – the tragic loss of a loved one, a colleague, someone in our community, a patient, or someone very supportive... everyone has a story to tell.

This conference is designed to help those of us working with anyone impacted by suicide. Delegates can expect to take away a range of knowledge, inspiration and skills for practical implementation in real-life situations. Learning from leaders in the field, delegates will experience interactive sessions that can help to drive change.

This unique CPD-accredited event will take place across eight short webinars, allowing you the flexibility to join as many as you like. And if you are unable to attend any sessions, don't worry – we will be recording the whole conference and making sessions available for viewing from October via our E-Learning portal. All fees raised through ticket sales cover our administration costs and help us to sustain our life-saving support to those impacted by self harm and suicide across the UK.
